FOR SOCIAL RESPONSIBILITY

# YMCA Babysitting Course

The YMCA babysitter course is a one day class for youth ages 11 to 15. They will receive information and learn skills necessary to give responsible care for children in the absence of parents or guardians. This training will help participants develop leadership & professionalism skills, basic care, safe play and first aid.

Basic CPR skills will be taught using American Heart Association materials. Materials that will be used are an instructional DVD, mannequin, and book.

Students have the option to purchase this kit to take home so the whole family can learn lifesaving skills.
