

A. E. Finley YMCA Medication Form

Parents,

The YMCA wants to provide your child with the best and most accurate care possible. Therefore, if your child will be taking medication at anytime during the program day, you must follow these steps:

1. You must complete an authorization form and return it to the Program Director. (one form per medication)
2. You must bring in the medication to the YMCA Program office; as a safety precaution, your child is **NOT** allowed to bring in the medication.
3. Please bring enough medication (in the original container) for the duration of the session.
4. If your child will be taking medication at two different program sites, you must supply both sites with authorization forms, medication information, and medication supply. *Each program keeps separate records for medication, and programs **cannot** transport medication.*
5. At the end of the program, you need to come by and pick up any empty containers.
6. If your child stops taking medication at any time during the program, please notify the YMCA program office. Your child's records carry over from one session to another.

Again, we want to ensure the safety of your child at all times. We appreciate your following these procedures. No medication will be given to your child, nor will your child be allowed to take any medication without your documented permission. If you have questions, please contact your YMCA Program Director at the A. E. Finley YMCA at 848-9622. Thank you for your help!

Permission to Administer Medication
